## **Ed Humphreys Responds to Meager Tax Cuts**

(Eagle, Idaho) Ed Humphreys, Republican Candidate for Governor, responds to the Governor's Tax Relief Bill.

Humphreys stated, "I applaud Governor Little for reducing the number of income brackets and for reducing the top rate by 0.425% but he hasn't gone nearly far enough. I have a plan that will abolish income taxes in Idaho entirely. For the average Idahoan that would put \$3,000 more in their wallet each year."

Ed Humphreys has worked with leaders in the business and finance community to analyze the State of Idaho's entire budget. Also, a business plan to abolish individual and corporate income taxes without shifting the tax burden to other taxpayers has been developed.

When first presented with the news of tax relief, Ed Humphreys quipped, "That's it? After all the cash this state has taken from the feds this year, you'd think we could get some real tax relief."

Idaho's highest income tax rate is higher than 36 other states according to data from the Tax Foundation.
