## **Humphreys Calls for Members of Idaho State Board of Education to Resign for Promoting Anti-American Policies**

(Eagle, Idaho) Ed Humphreys, GOP Candidate for Idaho Governor, is calling for the resignation of the entire Idaho State Board of Education (ISBE) for their blatant attempt to push an anti-American, social justice policy in the “Governing Policies and Procedures” in Idaho’s colleges and universities to promote diversity, inclusion, & equity (DIE).

“These so-called education leaders should be ashamed of themselves for advancing a policy that promotes curriculum which upholds the Declaration of Independence as a white supremacist event. To ‘promote and advance’ these policies only inflame the racist, Socialist propaganda pushed at our universities,” Humphreys said.

Prior to the ISBE’s 4pm meeting yesterday in a Facebook Live event, Humphreys produced documents showing Boise State University and Idaho State University’s indoctrination of college students.

“ISBE members claim there is no evidence of indoctrination of racist, social justice, and Socialist ideas but there are plenty of examples including this new policy which I like to call DIE (diversity, inclusion and equity), because this new policy is where education will “die” under the weight of this hideous propaganda,” Humphreys added.
